Mike, please make sure that it is to us on Tuesday. We need to make sure that we have time to review and get everything else done before the task order is complete. Thanks!

Subject: Des Moines TCE risk assessment

Erin:

I jumped the gun a little on the risk assessment. It finally came back from technical review and changes were made. It will be in editorial review this afternoon and tomorrow and finally in QC review on Monday. I am hoping to get it to you on Tuesday. I'll keep after everyone. In the meantime, we're working on the feasibility studies for the SPA and production building.

Thanks,

-Mike
